

The Emperor of All Maladies

2 Assignments:

There are many more forms of cancer treatment in 2023 than those available to Sydney Farber in his dark basement facility at Children's Hospital, Boston, in 1947. Your assignments are simple enough:

1. **Create a visual representation of the history of cancer treatment** according to *The Emperor of All Maladies: A Biography of Cancer*.

"What does that mean," you say?

"Well, that's up to you," is my reply.

You retort, "But what do you want to see Mr. Gibson?"

I restate, "A visual representation of the history of cancer treatment according to *The Emperor of All Maladies: A Biography of Cancer*."

Now, with some level of irritation, you ask, "What exactly does that look like?"

Finally, I concede.

- You KNOW some of the basic requirements.
Neat—do not draw shapes freehand. Use a ruler, compass, etc.
Colorful
Creative
Interesting
- The piece should be completely **your** work. You may NOT obtain help from ANYONE else.
- Represent ALL treatments: their names, methods of administration, effectiveness, created/discovered by, side effects, etc.
- Begin at the beginning and end at the end.

Some example ideas:

A creative timeline

A booklet

A SMALL poster/organized collage

A documentary style video

CREATIVITY is a plus!

2. **Annotate your book**, cover to cover. Be sure to highlight and define any new words.

Do not ask me questions or seek advanced approval. Confidently demonstrate what you've learned after reading the book. See you in the fall! Due the first week of school.
